

Using a round no. 3 Brush, create 3 tear drops in the centre of forehead. Then 4 on either side of the eyes. Use the very tip of your brush with a very light pressure to connect the tear drops creating the webs.

Using a petal sponge dab the centre of the forehead to cover between the eyes in colour red. Continue around sides of eyes. Tip - If the paint is of a drier TAG consistency, you can create a softer finish around sides of eyes. Dry paint - use less water to load sponge.

Optional - create highlights. You can use white paint or for extra pop, we TAG have used 'Teal'. Going over just the top of the tear drops and eye outline.

**Optional - to create extra dimension** use a stencil with patterned dots or paint your own dots using a round brush. These should extend to sides of face and come down the nose past Body Art the eyebrows.

Outline Spider man eyes in dark blue

or black paint using a small round

brush.

TAG

## **Palette**

**Red** - for forehead & around eyes

Dark blue - eye outline

**Teal** - for highlights

White - for eyes & highlights
